

## **Green Valley Learning Fund Employer Matching**

### **What is Employer Matching?**

Many companies have philanthropic programs that will financially match their employees' donations to nonprofit organizations.

### **What is the most common matching gift**

A 1:1 matching gift is most common but a higher ratio is possible, depending on the company policy.

- Many companies have deadlines to submit matching requests (e.g. end of calendar year or within a set period of the donation date).
- If both parents' employers match, you can submit the same donation to each company for a match, and potentially triple your donation!

### **How do I know if my employer matches?**

- You can find out if your employer matches here:
