

Green Valley Learning Fund Employer Matching

What is Employer Matching?

Many companies have philanthropic programs that will financially match their employees' donations to nonprofit organizations.

What is the most common matching gift

A 1:1 matching gift is most common but a higher ratio is possible, depending on the company policy.

- Many companies have deadlines to submit matching requests (e.g. end of calendar year or within a set period of the donation date).
- If both parents' employers match, you can submit the same donation to each company for a match, and potentially triple your donation!

How do I know if my employer matches?

You can find out if your employer matches here:
